## Dear shareholders,

The first half 2020 was marked by the worldwide spread of the coronavirus pandemic and its negative consequences for the global economy. After an initially solid performance in the first quarter, the rapid expansion of the coronavirus combined with extensive governmentimposed restrictions on industrial production and global trade in goods led to major challenges.

Thanks to timely countermeasures and our employees' exceptional dedication, we were able to almost fully maintain our own delivery capability. However, the difficult circumstances for our customers led to a sharp decrease in demand in the second quarter, in particular for our products in the low-voltage and composite markets.

Even during the coronavirus crisis, we continued to pursue our strategic goals with determined commitment. These involve increasing productivity in our global plant network, expanding our skills and activities into new markets (automotive and aerospace), and searching for acquisition targets. The progress in the first half of the year includes:

- » strengthening our presence in India through the expansion of local coil production in connection with the conclusion of a major contract in the wind industry
- » further consolidation of the global plant network by spinning off two loss-making sites in France
- » gaining further nominations in the double-digit million range in the e-mobility market
- » a rising number of evaluation projects, reflecting positive interest in our innovations for aerospace applications
- » excellent response to the consulting services offered by our Institute for High-Voltage Insulation

Net sales amounted to CHF 119.5 million in the first half of 2020 (first half of 2019: CHF 154.8 million). Taking into account the changes in the scope of consolidation and exchange rate effects, the year-over-year decline in revenue was around 12.3%. Due to all the structural adjustments in the last few years and prudent cost management, we managed to generate an operating income before deconsolidation of the two plants in France of CHF 0.5 million despite the coronavirus crisis.

However, nonrecurring expenses from the two discontinued French sites in Delle led to an operating loss (EBIT) of CHF 10.9 million (first half of 2019: operating income of CHF 2.5 million). The net result decreased to a similar extent to CHF -15.0 million (first half of 2019: CHF -0.6 million).

Cash flow from operating activities was CHF 1.6 million (first half of 2019: CHF -1.2 million). Following the successful repayment of the convertible bond from 2014, Von Roll has liquid assets of around CHF 48 million. The equity ratio improved slightly to 74.3% as a result of the balance sheet contraction.

For the second half of the year, we expect a weak economy that is still shaped by Covid-19. Due to the uncertain and highly volatile situation, a forecast is currently very difficult. Based on our solid liquidity and high equity ratio, we consider ourselves well positioned for the next few months.

Breitenbach, August 2020

## Condensed notes to the consolidated Semi-Annual Report (unaudited)

## 1. Accounting principles

#### General information

This report contains the consolidated semi-annual financial statements for the period ended June 30, 2020, of Von Roll Holding AG and its subsidiaries.

Von Roll Holding AG (the "company") and its subsidiaries (collectively "Von Roll") is an international manufacturing and services corporation. Its primary activities are outlined in the notes on the business segments (see note 5). The company is a publicly traded company listed on the Swiss stock exchange (SIX Swiss Exchange). Its domicile is at Passwangstrasse 20, 4226 Breitenbach, Switzerland.

#### Significant accounting policies

The 2020 Semi-Annual Report has been prepared in accordance with all guidelines set out in the Swiss GAAP FER Accounting and Reporting Recommendations and should be read in conjunction with the consolidated financial statements prepared for the financial year ended on December 31, 2019. This is because the consolidated semiannual financial statements do not include all disclosures from the annual financial statements. The consolidated Semi-Annual Report presents a true and fair view of the financial position, the cash flows and the result of operations. The financial statements also comply with the provisions of the SIX Swiss Exchange Listing Rules and of the Swiss law on companies limited by shares.

The preparation of the Semi-Annual Report in accordance with Swiss GAAP FER requires the management to estimate values and to make assumptions that affect the income, expenses, assets and liabilities reported as well as the disclosure of contingent liabilities. If, in the future, these estimates and assumptions, based on the management's best judgment at the date of the semi-annual financial statements, differ from the current circumstances, then the estimates will be modified in the period in which the circumstances change.

The consolidated semi-annual financial statements are presented in Swiss francs (CHF) and refer to thousands of CHF (TCHF). Due to the chosen number format, minor rounding differences may arise.

### 2. Change from IFRS to Swiss GAAP FER

Von Roll changed from IFRS to Swiss GAAP FER with the annual financial statements for the year ended December 31, 2019. The figures for the 2018 financial year have been retrospectively restated. The financial statements for the first half of 2019 were presented under IFRS Standards. The effects of these restatements on equity as at January 1, 2019, and on earnings in the first half of 2019, can be summarized as follows:

#### Effects on equity as at January 1, 2019:

Equity Swiss GAAP FER	197,379	198,542	
taxes relating to tax loss carryforwards			
Effect of non-recognition of deferred	-9,975	-9,973	(4)
Deferred taxes on IAS 19 adjustment	4,648	4,445	(3)
IAS 19 adjustment		-18,486	(2)
Goodwill offset		-10,428	(1)
Equity IFRS	234,129	232,984	
in CHF 1,000	30.06.2019	1.1.2019	Remarks

#### Effects on net income in the first half of the year:

in CHF 1,000	1H 2019	Remarks
Net income 2019 IFRS	892	
IAS 19 Adjustment	-1,556	(2)
Deferred taxes on IAS 19 adjustment	107	(3)
Effect of non-recognition of deferred	-	(4)
taxes relating to tax loss carryforwards		
Earnings after taxes (EAT) 2019 according to Swiss GAAP FER	-557	

#### (1) Goodwill from acquisitions

Goodwill from acquisitions is offset against equity at the time of acquisition in accordance with the option in Swiss GAAP FER 30 "Consolidated financial statements". Under IFRS, goodwill was capitalized and tested annually for impairment.

#### (2) IAS 19 (Employee benefits)

In accordance with Swiss GAAP FER 16 "Pension benefit obligations," financial obligations/benefits under Swiss pension plans are measured on the basis of the financial statements prepared in accordance with Swiss GAAP FER 26 "Accounting of pension plans". Financial effects arising from the pension plans of foreign subsidiaries are measured using the locally applicable valuation methods. Under IFRS rules, defined benefit pension plans were calculated using the projected unit credit method and recognized in accordance with IAS 19.

The most significant adjustment was for the Swiss plan, which showed an economic benefit to be capitalized as calculated under IAS 19 rules. Under Swiss GAAP FER, this surplus is not considered an economic benefit because Von Roll is not entitled to reimburse and cannot show any employer contribution reserves. Accordingly, this surplus is not capitalized under Swiss GAAP FER.

#### (3) Deferred taxes on IAS 19

Deferred taxes are recognized for temporary differences between IFRS and the tax balance sheet. This item thus refers to the adjustments to employee benefits balance sheet items described above (assets and liabilities). Under IAS 19, the change is partially recorded through profit and loss and partially through other comprehensive income.

#### (4) No capitalization of deferred taxes on loss carryforwards

Under IFRS, deferred tax assets connected with tax loss carryforwards must be capitalized if certain conditions are met. Under Swiss GAAP FER, an option is available in this regard. As allowed under Swiss GAAP FER, Von Roll has elected not to capitalize future tax savings from offsettable tax loss carryforwards.

Further income statement effects of changing to Swiss GAAP FER are as follows:

- » In connection with the change to Swiss GAAP FER, cumulative translation differences were set at zero as at January 1, 2018, or offset against retained earnings.
- The income statement is now presented using the nature of expense method. Under IFRS, Von Roll had opted for the function of expense method

Further balance sheet effects of changing to Swiss GAAP FER are as follows:

- » Assets under construction, investment properties and undeveloped land are shown separately.
- Intangible assets have been expanded to include "internally developed intangible assets"

#### 3. Changes in the scope of consolidation

**Discontinuation of** business units

With the announcement of May 26, 2020, an application was made to the commercial court to open judicial reorganization proceedings ("redressement judiciaire") for the French production sites in Delle, France (Delle Fil SAS and Von Roll Isola France SA). The Board of Directors had previously decided not to provide any further funds to these companies. Bankruptcy proceedings were opened on May 28, 2020, for both companies.

By opening the judicial reorganization proceedings, Von Roll is spinning off two business units that had been making a loss for two years. Delle Fil SAS produced enameled and taped winding wires (Insulation segment) with around 100 employees at the site in Delle, France. Employing around 50 staff, Von Roll Isola France SA distributed and produced various composites (Composites segment), also at the site in Delle, France.

In the 2020 financial year, Delle Fil SAS contributed CHF 12.3 million to net sales and TCHF -130 to operating income (EBIT). Von Roll Isola France SA generated net sales of CHF 4.1 million and operating income (EBIT) of TCHF -552 in the current financial year. The aforementioned figures are included in operating income before deconsolidation.

A loss of around CHF 11.5 million is attributable to the deconsolidation of the two companies as at May 28, 2020. Of this, a loss of around CHF 8.6 million is attributable to Delle Fil SAS and a loss of around CHF 2.9 million to Von Roll Isola France SA.

The loss from deconsolidation mainly comprises the disposal of assets/liabilities (of which CHF 1.5 million in cash) and valuation allowances on receivables and loans to the companies leaving the Group.

## 4. Foreign currencies

The following exchange rates were applied for the translation of foreign currencies into Swiss francs (CHF):

	Ave
Currency	1H 20
EUR	1.06
USD	0.96

0.205	0.259	0.174	0.255	
0.138	0.147	0.135	0.142	

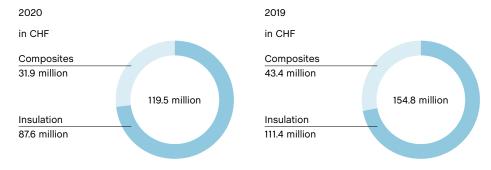

## 5. Business segments

The primary operating activities of Von Roll are divided into the two segments, Von Roll Insulation and Von Roll Composites, which form the basis for segment reporting. The Von Roll business segments encompass all activities relating to production processes.

The primary activities are as follows:

- » Von Roll Insulation production and distribution of electrical insulation materials, winding wires, resins and varnishes
- » Von Roll Composites production and distribution of composites

Net sales per business segment:

The financial operating results per segment are not disclosed because continuing disclosure entails a risk of significant competitive disadvantage. The target markets within these segments are predominantly market niches with a relatively homogeneous product range. The key competitors in the markets relevant for Von Roll either are unlisted companies or do not disclose comparable segment information.

#### Geographical information

Net sales by geographic market:

Von Roll	119,509	100.0%	154,754	100.0%	-22.8%

### 6. Net sales

Net sales in the first half of 2020 were around CHF 35.2 million lower than in the first half of 2019. This is equivalent to a decrease of 22.8%.

Taking account of the changes in the scope of consolidation, sales were CHF 24.3 million lower compared to the first half of 2019, which is equivalent to a decrease in the core business of around 15.7%.

in CHF 1,000	2020	in %	2019	in %
Net sales	119,509	100.0%	154,754	100.0%
- Net sales Isola France	4,085		6,578	
- Net sales Delle Fil	12,302		18,358	
- Sale of adhesive tape business			2,382	
Net sales adjusted for the above effects	103,122		127,436	
Total changes	-24,314	-15.7 %		
- Currency effects	-5,323			
Total changes adjusted for currency effects	-18,991	-12.3%		

### 7. Financial result

The volatility in the financial and capital markets associated with Covid-19 led to a devaluation of the currencies relevant for Von Roll (BRL, INR, USD, EUR).

### 8. Financial liabilities

Von Roll has the following convertible bonds outstanding:

1.00 % conv. bond 2016-22	1.25 % conv. bond 2014-20
127,135	52,104
9,526	4,597
-135,621	-50,596
_	-6,105
1,040	
1,093	_
	2016-22 127,135 9,526 -135,621 - 1,040

No rights were converted during the reporting period. The 1.25% convertible bond 2014 - 2020 matured on June 18, 2020, and was repaid on time.
