Dear Shareholders,

We have gone through a period of several years of restructuring, which included divesting unprofitable business units, increasing productivity, modernizing our products and management systems, and restoring our financial strength.

With the final restructuring phase completed last year, Von Roll is now on a strong and competitive basis that provides a platform for future growth and entry into new business areas.

For the current financial year, Von Roll can look back on a strong first half of 2021. Order intake improved by 15.0 % to CHF 123.9 million, compared with CHF 108.1 million in the first half of 2020 after adjustment for the plants in France, which were discontinued in 2020.

We managed to pass on most of the massive increases in raw material and logistics costs since the beginning of the year to the market. To ensure our delivery capacity, we increased our inventories early and in a targeted manner; however, this led to an increased working capital as per June 30, 2021.

Net sales in the first half of 2021 were CHF 108.6 million (first half of 2020: CHF 119.5 million). Before currency effects and taking into account the changes in the scope of consolidation, organic sales growth amounted to CHF 7.1 million (+6.9 %) compared to the first half of 2020.

The operating result (EBIT) amounted to CHF 14.0 million, after a loss of CHF -10.9 million in the first half of 2020. This includes non-recurring other operating income of CHF 6.7 million from the sale of operating real estate in Switzerland and CHF 1.4 million from the sale of the investment in the French wire plant, discontinued in 2020. Adjusted for this one-off effect, the EBIT margin was 5.5%.

Earnings after taxes (EAT) also improved to CHF 26.3 million for the first half of 2021 (first half of 2020: CHF -15.0 million). In addition to the significant increase in operating earnings power Von Roll benefited especially from the sale of non-operating real estate in Switzerland. This resulted in one-off non-operating income of CHF 12.9 million.

Cash and cash equivalents amounted to CHF 73.8 million at the end of June 2021. This includes payment received of CHF 25.0 million from the sale of real estate. At 74.8%, the equity ratio remains at a very high level.

As part of our strategic orientation, it is becoming apparent that our products and solutions will play a key role in the global electrification of industry and mobility, and thus in an emissions-free future. These megatrends offer Von Roll high growth potential.

Von Roll's strategic realignment is supported by the completely revised and modernized website. With this we present ourselves as a strong partner for our customers and as an interesting employer for talents.

Condensed notes to the consolidated Semi-Annual Report (unaudited)

1. Accounting principles

General information

This report contains the consolidated semi-annual financial statements for the period ended June 30, 2021, of Von Roll Holding AG and its subsidiaries.

Von Roll Holding AG (the "company") and its subsidiaries (collectively "Von Roll") is an international manufacturing and services corporation. Its primary activities are outlined below on the business segments. The company is a publicly traded company listed on the Swiss stock exchange (SIX Swiss Exchange). Its domicile is at Passwangstrasse 20, 4226 Breitenbach, Switzerland.

The primary operating activities of Von Roll are divided into the two business segments, Von Roll Insulation and Von Roll Composites, which form the basis for segment reporting. Von Roll business segments encompass all activities relating to production processes.

The primary activities are as follows:

- » Von Roll Insulation production and distribution of electrical insulation materials, winding wires, resins and varnishes
- » Von Roll Composites production and distribution of composites

The financial operating results per segment are not disclosed because continuing disclosure entails a risk of significant competitive disadvantage. The target markets within these segments are predominantly market niches with a relatively homogeneous product range. The key competitors in the markets relevant for Von Roll either are unlisted companies or do not disclose comparable segment information.

Significant accounting policies

The 2021 Semi-Annual Report has been prepared in accordance with all guidelines set out in the Swiss GAAP FER Accounting and Reporting Recommendations and should be read in conjunction with the consolidated annual financial statements prepared for the financial year ended on December 31, 2020. This is because the consolidated semiannual financial statements do not include all disclosures from the annual financial statements. The consolidated Semi-Annual Report presents a true and fair view of Von Roll's financial position, cash flows and result of operations. The financial statements also comply with the listing rules of the SIX Swiss Exchange and and of the Swiss stock corporation law.

The preparation of the Semi-Annual Report in accordance with Swiss GAAP FER requires the Management to estimate values and to make assumptions that affect the income, expenses, assets and liabilities reported as well as the disclosure of contingent liabilities. If, in the future, these estimates and assumptions, based on the Management's best judgment at the date of the semi-annual financial statements, differ from the current circumstances, then the estimates will be modified in the period in which the circumstances change.

The consolidated semi-annual financial statements are presented in Swiss francs (CHF) and refer to CHF 1,000 (TCHF). Due to the chosen number format, minor rounding differences may arise.

2. Changes in the scope of consolidation

Disposals

The following changes occurred in the scope of consolidation in the first half of 2020:

With the announcement of May 26, 2020, an application was made to the commercial court to open judicial reorganization proceedings ("redressement judiciaire") for the French production sites in Delle, France (Delle Fil SAS and Von Roll Isola France S.A.). The Board of Directors had previously decided not to provide any further funds to these companies. Bankruptcy proceedings were opened on May 28, 2020, for both companies.

By opening the judicial reorganization proceedings, Von Roll is spinning off two business units that had been making losses for many years. Delle Fil SAS produced enameled and taped winding wires (Insulation segment) with 100 employees at the site in Delle, France. Employing 50 staff, Von Roll Isola France S.A. distributed and produced various composites (Composites segment), also at the site in Delle, France.

In the 2020 financial year, Delle Fil SAS contributed CHF 12.3 million to net sales and CHF 0.1 million to operating income (EBIT). Von Roll Isola France S.A. generated net sales of CHF 4.1 million and operating income (EBIT) of CHF 0.6 million in 2020. The aforementioned figures are included in operating income before deconsolidation.

A loss of CHF 11.5 million is attributable to the deconsolidation of the two companies as at May 28, 2020. Of this, a loss of CHF 8.6 million is attributable to Delle Fil SAS and a loss of CHF 2.9 million to Von Roll Isola France S.A.

The loss from deconsolidation mainly comprises the disposal of assets/liabilities (of which CHF 1.5 million in cash) and valuation allowances on receivables and loans to the companies leaving Von Roll.
