

Von Roll UK

## Insulation Made to Measure and More

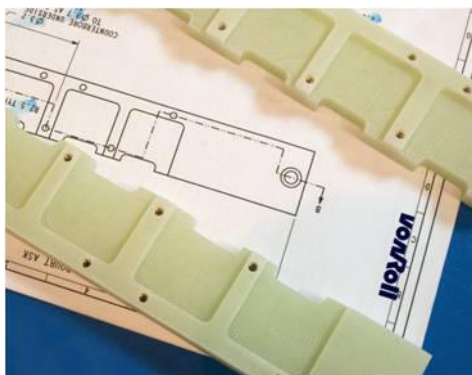

Von Roll UK Ltd. has been supplying complete insulation systems from its Bradford site for over 30 years. We are part of the world-renowned Von Roll Group, the global market leader in insulation products and producer of composite materials and parts for assorted industry appliances.

Von Roll UK offers the ability to machine materials according to customers' designs and drawings. We can propose solutions for all aspects of machining using a comprehensive range of state-of-the-art CNC machine tools to produce high-quality machined parts.

### **Our reputation for quality and service is second to none**

Whether supplying the largest original equipment manufacturer or a small breakdown facility, you can be sure of a fast, efficient service.

We can supply one-off complex parts or high volume. We also have experience with JIT and KanBan.

### **No drawing, no problem**

With the help of our well-equipped Quality department, which has at its disposal the Mitutoyo BH706 CMM, we can reverse-engineer any part you need. We can also supply full engineering drawings if required.

Through our CAD-CAM facility we are able to accept all industry-standard electronic files to enable us to machine straight from your own design

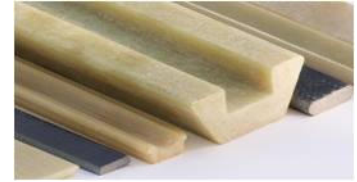

# Our Products and Services

Von Roll UK provides a rapid, cost-effective service that allows us to meet the specifications and demanding schedules required by our customers.

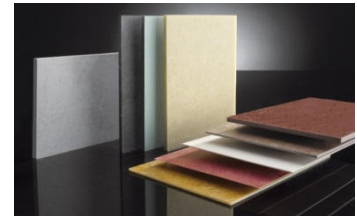

» **A large variety of composites**

A comprehensive range of all Von Roll composite materials, both standard and non-standard, is available on site and enables us to provide rapid, cost-effective service and to meet the demanding schedules of our customers.

» **Machined parts**

Manufactured from engineering drawings, sketches or just a sample, we can supply machined parts, sub-assembled items and ready-made parts to be incorporated into all types of applications.

» **Strips and cut panels**

Same-day service if required. Just let our Customer Service know your requirements.

» **Wedges**

We can supply wedges either from drawings or samples within 24 hours on request. We also offer a bespoke sample service.

» **Sub-assembly**

We can supply sub-assembled items to cut your costs and reduce your lead time.

» **A complete service to industry**

A proven track record of supply to all business sectors, including power generation, power transfer, high-voltage and low-voltage electrical machines, marine, medical industry and many more.

» **Customer focus**

We pride ourselves on being customer-oriented and offer customer-tailored solutions.

» **Expertise**

Decades of experience in the field of electrical insulating materials and our ability to machine our materials according to customers' designs and drawings makes Von Roll a first choice for consulting.

» **Quality**

We operate according to the strictest quality, environmental, and health and safety guidelines and are certified to ISO 9001, ISO 14001 and BS OHSAS 18001.
